

PROPERTY COMPUTER MAPPING WORKSHOPS

AgForce Projects is proud to be delivering a Natural Disaster Recovery and Resilience Project to landholders affected by 2017 Severe Tropical Cyclone Debbie.

In Queensland natural disasters are unavoidable, however with this Property Computer Mapping workshop we aim to help you ensure your business is ready and more resilient to what nature has to deliver.

Spend a day with our mapping professionals and start to learn property computer mapping, one of the most effective property management tools available to producers.

What producers will receive:

- » Learn the advantages of using a property map as a management tool;
- » Set up your own map project;
- » Draw property infrastructure e.g. paddocks, fences & water points;
- » All day training with qualified mapping professionals;
- » Linking GPS device to property map and program;
- » Elevation Data and 3D mapping;
- » Property data analysis demonstration: buffering objects for planning and monitoring; and
- » Take home property data and the up-to-date government vegetation mapping layers and elevation data.

Middlemount - Tuesday 21 August 2018

Dingo - Wednesday 22 August 2018

Rockhampton - Thursday 23 August 2018

Example of a property map showing paddocks (yellow lines) and water points (blue dots)

The buffering tool allows you to analyse grazing pressure in each paddock around your water points

**All workshops run from
8:30am - 4:00pm.
Includes morning tea and
lunch. Please RSVP by 16
August to allow sufficient
time for processing and
to avoid missing out.**

REGISTRATION FORM

To register complete the form below or visit bit.ly/2toWleA to register online.

Which workshop are you registering for? Middlemount Dingo Rockhampton

Name: _____

Enterprise name: _____ Phone: _____ Fax: _____
